Improve Delivery of Info to At-Risk and Remote Communities Flagship Update - FY2010 – 3rd Quarter

Description of Flagship Project

- ✓ The Improve Delivery of Information to At-Risk and Remote Communities Project falls under the "Expanding the Environmental Conversation with Communities" Flagship Theme

- ✓ We are connecting with communities historically underrepresented in EPA decision making, to enhance their ability to acquire information and use it to meaningfully participate in EPA decisions

- ✓ The project focuses on information access, information delivery (including electronic delivery systems in the context of the digital divide), and ways to provide technical information so that it is clear, relevant, accessible and timely for use by affected communities

- ✓ Additional information can be found at:
